| 56. Nirbhaya Fund is set up under which | of the following Ministry? | | | | | |
| a) Ministry of Health and Family | Welfare | | | | | |
| b) Ministry of Women and Child | Development | | | | | |
| c) Ministry of Finance | | | | | | |
| d) Minister of Home | | | | | | |
| | | | | | | |
| 57. Gross National Happiness (GNH) de | veloped by | | | | | |
| a) Nepal | b) India | | | | | |
| c) Bhutan | d) Norway | | | | | |
| 58. Which of the following tiger reserve linking project? | will affected due to ken-betwa River | | | | | |
| a) Satyamangalam b) Tadoba | | | | | | |
| c) Namdapha d) Panna | | | | | | |
| 59. Recombinant DNA technology (Genetic Engineering) allows genes to be transferred | | | | | | |
| Across different species of plants From animals to plants From microorganisms to higher organisms | | | | | | |
| Select the correct answer using | g the codes given below: | | | | | |
| A) 1 only B) 2 only C) 1 and 3 only D) 1, 2 and 3 | | | | | | |
| 60. Arrange the following in increasing order of | of their water content. | | | | | |
| 1. Egg 2. Milk 3. Meat | 4. Fish | | | | | |
| Select the correct code | | | | | | |
| a) 1-4-3-2 b) 2-1-4-3 c) 1-3-4-2 | d. 4-1-3-2 | | | | | |

| 61. Consider t | the following sta | tements: | | | |
|-----------------|---|-------------------|----------|------------------|--------------------------|
| 1. Distilled wa | iter does not cor | nduct electricity | у. | | |
| 2. The pH of c | listilled water is | seven. | | | |
| Which of the | above statemen | ts are correct? | | | |
| a) 1 only | b) 2 only | c) Both 1 and 2 | 2 | d) Neither 1 nor | 2 |
| 62. Antibodie | s are formed by | | | | |
| a) T-cells | b) Monocytes | c) Phago | ocytes | d) B-cells | |
| 63. Pick the o | dd one out in reg | gard to its stem | n type: | | |
| a) Bamboo | b) Sugar cane | | | | |
| c) Banana | d) Mango | | | | |
| 64. Project L | oon is develop | ped by | | | |
| a) Google | | | b) I | Facebook | |
| c) Yahoo | | | d) | Twitter | |
| 65. If someo | ne is suffering | from the pro | oblem (| of acidity. Wha | at is the ideal thing he |
| should take | to have relief? | • | | | |
| a) Lemon ju | ice b) Vinega | c) Baking so | oda so | lution d) Aerat | ed soft drink |
| 66. With res | pect to neutrin | o which of th | he follo | owing was/wer | re correct? |
| | Neutrino is as It belongs to | | _ | ed particle | |
| Se | elect the correc | t answer usir | ng the | codes given be | elow: |
| | a) 1 onlyb) 2 onlyc) Both 1 and | 2 | d) Nei | ther 1 nor 2 | |
| 67. Acid rain | is caused by the | pollution of en | vironme | ent by | |
| a) | Carbon dioxide | and nitrogen | | | |

b) Carbon dioxide and carbon monoxide

d) Nitrous oxide and Sulphur dioxide

c) Ozone and carbon dioxide

| 68. What do you understand by River Regime? | | | | | |
|--|---|--|--|--|--|
| a) The patte | rn of flow of wat | er in a river channel over a year is known as its regime. | | | |
| b) It refers t | o the sinusoidal r | nature of river channel in its mature stage. | | | |
| c) The catch | ment area of a ri | ver and its tributaries is called its regime. | | | |
| d) The lengt | th traversed by a | river from its origin to its mouth is called its Regime. | | | |
| 69. The reco | ently commence | d maiden coastal feeder service between India and Bangladesh | | | |
| connected : | | | | | |
| a) Visakhapa | atnam and Panga | on ICT | | | |
| b) Visakhap | atnam and Chitta | ngong | | | |
| c) Krishnapa | atnam and Chitta | gong | | | |
| d) Haldia an | d Mongla | | | | |
| | | | | | |
| 70. Which o | ne of the followi | ng rivers do not originate in India? | | | |
| a) Ravi | b) Beas | c) Sutlej d) Chenab | | | |
| 71. Tsunam | is are the waves | generated by | | | |
| a) Moon's P | ull | b) Tropical Cyclones | | | |
| c) Earthqua | c) Earthquakes d) Cloud bursts | | | | |
| 72. Which of the following diseases can be transmitted from one person to another through tattooing? | | | | | |
| 2 | Chikungunya Hepatitis B HIV, AIDS | | | | |
| Select the correct answer using the codes given below: | | | | | |
| a) 1 only b. 2 and 3 only c. 1 and 3 only d. 1,2 and 3 | | | | | |
| 73. Conside | r the following m | ninerals: | | | |
| 1 | l. Calcium | | | | |
| _ | | | | | |

- 2. Iron
- 3. Sodium

Which of the minerals given above is/are required by human body for the contraction of muscles?

1 only B) 2 and 3 only C) 1 and 3 only D) 1,2 and 3

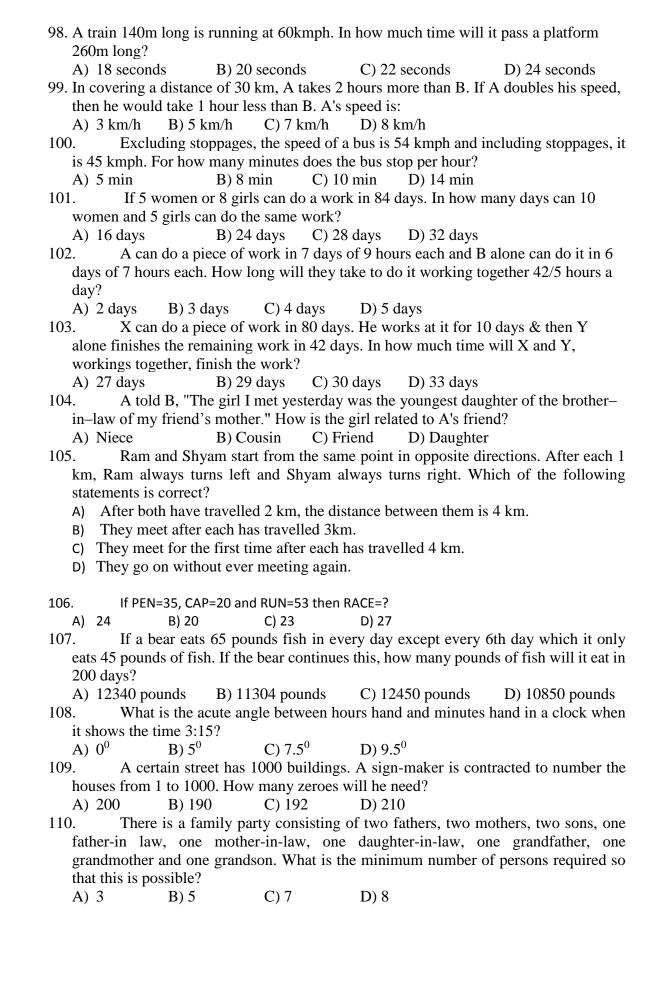

| 74. Consider the following diseases: | | | | | |
|---|---|--|--|--|--|
| Diphtheria Chickenpox Smallpox | | | | | |
| Which of the above diseases has/have been eradicated in India? | | | | | |
| A) 1 and 2 only B) 3 only C) 1,2 and 3 D) None | | | | | |
| 75. The essential feature of shifting cultivation is | | | | | |
| (A) Intensity of crops (B) Rotation of fields (C) Single cropping (D) Double cropping | | | | | |
| 76. Which deity is related to the famous Amareswara Temple from where 'Amravati' derive | S | | | | |
| its name? | | | | | |
| a) Lord Vishnu b) Lord Brahma | | | | | |

| | A. 5, 6, 3, 2, 4, 1 B. 5, 6, 4, 2, 3, 1 C. 5, 6, 2, 3, 4, 1 D. 6, 5, 4, 2, 3, 1 | | | | | | |
| 12 | 2. Assume that | | | | | | |
| | 1. The hour and min | ute hands of a clock r | move without jerking. | | | | |
| | 2. The clock shows a time between 8 o'clock and 9 o'clock. | | | | | | |
| | 3. The two hands of the clock are one above the other. | | | | | | |
| | After how many minutes (nearest integer) with the two hands will be again lying one | | | | | | |
| | above the other? | | | | | | |
| | A. 60 B. 62 | C. 65 | D. 67 | | | | |
| 12 | 3. If the 3rd day | of a month is Monda | y, which one of the following will be the fifth | | | | |
| | day from 21st of this month? | | | | | | |
| a. I | Monday b. Tue | esday c. Wednesd | ay d. Friday | | | | |
| 12 | 124. Two glasses of equal volume are respectively half and three-fourths filled with | | | | | | |
| | milk. They are then filled to the brim by adding water. Their contents are then poured | | | | | | |
| | into another vessel. | What will be the ration | o of milk to water in this vessel? | | | | |
| A. | 1:3 b.2:3 | c. 3: | 2 d.5:3 | | | | |
| 12 | 5. A sum of RS. | 700 has to be used t | o give seven cash prizes to the students of a | | | | |
| | school for their ove | rall academic perfor | mance. If each prize is Rs. 20 less than its | | | | |
| | preceding prize, the | n what is the least va | lue of the prize? | | | | |
| | A. Rs. 30 b. Rs. | 40 c. Rs. 60 | d. Rs. 80 | | | | |

126. The music director of a film wants to select four persons to work on different aspects of the composition of a piece of music. Seven persons are available for this work; they are Rohit, Tanya, Shobha, Kaushal, Kunal, Mukesh and Jaswant. Rohit and Tanya will not work together. Kunal and Shobha will not work together. Mukesh and Kunal want to work together.

Which of the following is the most acceptable group of people that can be selected by the music director?

- A. Rohit, Shobha, Kunal and Kaushal
- B. Tanya, Kaushal, Shobha and Rohit
- C. Tanya, Mukesh, Kunal and Jaswant
- D. Shobha, Tanya, Rohit and Mukesh
- 127. There are five hobby clubs in a college viz, photography, yachting, chess, electronics and gardening. The gardening group meets every second day, the electronics group meets every third day, the chess group meets every fourth day, the yachting group meets every fifth day and the photography group meets every sixth day. How many times do all the five groups meet on the same day within 180 days?
 - A. 3 B. 5 C. 10 D. 18
- 128. A gardener has 1000 plants: He wants to plant them in such a way that the number of rows and the number of columns remains the same. What is the minimum number of plants that he needs more for this purpose?
 - (a) 14 (b) 24 (c) 32 (d) 34
- 129. In an examination, there are 3 subjects-A-B-C, a student has to pass in each subject. 20% of the students failed in the subject A. 22% of the students failed in the subject B. 16% failed in the subject C. The total number of students passing the whole examination lies between
- A. 42% and 84%. B. 42% and 78%. C. 58% and 78%. D. 58% and 84%
- 130. Mr.Tulasiram borrows Rs 12,000/- at the rate of 10% p.a. with simple interest and immediately invests it for compounding at the same rate. The profit earned by him at the end of third year is
 - A. 372 B. 382 C. 362 D. 392

- 131. A village having a population of 4000 requires 150 liters of water per head per day. It has a tank measuring 20 m x 15 m x 6 m. The water of this tank will last for
 - (a) 2 days
- (b) 3 days
- (c) 4 days
- (d) 5 days
- 132. You have taken up a project to create night-shelters for homeless people during the winter season. Within a week of establishing the shelters, you have received complaints from the residents of the area about the increase in theft cases with a demand to remove the shelters. You would
 - (a) Ask them to lodge a written complaint in the police station.
 - (b) Assure residents of an enquiry into the matter.
 - (c) Ask residents to consider the humanitarian effort made.
 - (d) Continue with the project and ignore their complaint.
- 133. The houses of A and B face each other on a road going north-south; A's being on the western side. A comes out of his house, turns left, travels 5 km, turns right, travels 5 km to the front of D's house. B does exactly the same and reaches the front of C's house. In this context, which one of the following statements is correct?
 - (a) C and D live on the same street.
 - (b) C's house faces south.
 - (c) The houses of C and D are less than 20 km apart.
 - (d) None of the above
- Which of the following g parameters are included in the calculation of Human Development Index (HDI)?
 - 1. Standard of Living 2. Women empowerment
 - 3. Level of education 4. Life expectancy

Select the correct answer using the code given below:

- a. 1 and 3 only
- b. 1, 2 and 3 only
- c. 1, 2 and 4 only
- d. 1, 3 and 4 only

135.

Consider the following figures:

| 2 | 6 | 3 | ? |
|----|----|-----|----|
| 80 | 24 | 120 | 36 |

What is the missing number?

(a) 7

(b) 8

(c)9

(d) 12

Read the passage below and then answer the questions from 136 to 138:

Modern bio-technology, especially the creation of genetically modified crops, is often presented as a magic solution or universal panacea for the problems of poverty, inadequate nutrition and even environmental degradation across the world. Conversely there are people who present the picture of tech generated monsters and major human hazards being created by science. Many of the technological changes currently in the process of being utilized in agriculture can have unforeseen consequences, and their safety and future viability are far from secure.

The reality, as always, is far more complex than either of these two extremes. Even today the total food productions in the world are adequate to feed the hungry of the world; the problem is rather one of unequal distribution, which deprives a large part of the population requirement. Similarly farmers, especially in developing countries, face many problems such as luck of infrastructure, poor or unstable market access, volatile input and output prices etc, that biotechnology does not address, much less solve.

It is true that transonic plants can offer a range of benefits which are above and beyond those which emerged from more traditional innovations in cultivation. It is suggested that such new technology offers more effective pest resistance of seeds and crops through genetic control mechanism, which also reduces the needs for pesticide use and leads to improved yield. A basic question, of course, is safe, and whether the new GM technology is safe, and whether this is absolutely crucial since the effects may only be known much later. The jury is still very much out in these matters, and the controversy does not appear to be resolved quickly.

The trouble is that most governments in developing countries have relatively low food and beverage regulatory standards, and public system for monitoring and surveillance of such items are poor or non-existent. This leaves them open for entry and even dumping of a range of agricultural products of the new technology, which may into pass regulatory standards in the more developed countries.

136. Which of the following is true in context of the passage?

- A) Genetically modified crops have been universally recognized as a solution to poverty and environmental degradation
- B) The only way to improve the deficit in food requirement and food production in the world is by adapting genetically modified corps
- C) Genetically modified crops produce more yield as compared to yield from the traditional methods
- D) Taking advantage of absence of regulatory standards, scientists have been dumping new products in the markets new products in the markets without appropriate approval
 - 137. Why, according to the author, is genetic modification of crops not an answer to the problem of hunger in the world?
- i) People being highly doubtful of the long terms effects of genetically modified crops; do not buy the products grown by such methods.
- ii) The problem of hunger in the world is not due to inadequate productions of food but due to unequal distribution of it.
- iii) Many development countries have banned genetically modified products as developed counties have been using these countries as dumping ground for new genetically modified products.
- a) Only (i) b) O
 - b) Only (ii)
- c) Both (ii) and (iii)
- d) Both (i) and (iii)

138. The author of given passage seems to be definitely –

- A) In favors of utilizing bio-technology as a tool for alleviation of poverty from the world
- B) Unconvinced of the long terms effects and rationale for immediate requirement of genetically modified products
- C) Suggesting the use of traditional methods of agriculture as against biotechnology by development counties owing to their poor regularly standards
- D) Urging the policy makers to improve infrastructure facilities so that farmers can maximize the benefits of genetically modified crops
 - 139. Disaster Management Act 2005 does not include
 - a. Reduction of risk of any disaster
 - b. Avoiding disaster
 - c. Evacuation rescue and relief
 - d. Capacity Building

- 140. Which of the following is an example of mediated communication?
 - (a) A newscaster delivers the weather report on the six o'clock news.
 - (b) Two friends gossip with one another.
 - (c) Students work on a class project together.
 - (d) A politician addresses a nominating convention.
- 141. A teacher will be having effective teaching if
 - (a) he explains adequately the expected content to his student in a class
 - (b) he repeats the explanations in order to grasp by all the students
 - (c) he gives rich learning experiences to the students
 - (d) he gives right answers to all the queries of the students
- 142. Which of the following groups of students can be most benefited computer based education programme?
 - (a). small group of low IQ
- (b). large group of moderate intelligence
- (c). heterogeneous groups in IQ
- (d). all the above
- 143. Which of the following methods of communication is the most effective?
 - (a) presenting written material
 - (b) presenting written material along with film projector
 - (c) multimedia method
 - (d) cannot be determined.
- 144. Which is true about the way interpersonal relationships affect us physically?
- a. Humans are the only mammals that need relationships in order to thrive.
- b. Interpersonal relationships are not actually necessary for humans; studies show that humans raised in isolation are actually healthier than those raised with others.
- c. Interpersonal relationships are necessary until about age 6, but not later in adulthood.
- d. Deprived of interpersonal relationships, humans can become sick.
- 145. Which inscription of Ashoka gives an account of Kalinga War?
 - (A) Jaugada Rock Inscription
- (B) Dhauli Rock Inscription
 - (C) Rummindei Pillar Inscription (D) Shahbajgarhi Rock Edict

- 146. The Reserve Bank of India regulates the commercial banks in matters of?
 - 1. Liquidity of assets
 - 2. Branch expansion
 - 3. Merger of banks
 - 4. Winding up of banks
 Select the correct answer using the codes given below
- a) 1 and 4 only
- b) 2, 3 and 4 only
- c) 1, 2 and 3 only d) 1,2,3 and 4
- 147. What is the difference between Real GDP and Nominal GDP?
- 1. Real GDP values are adjusted for inflation, while nominal GDP values are not.
- 2. Nominal GDP value is usually higher than Real GDP value.
- 3. Real GDP is expressed in Base year prices but Nominal GDP is expressed in current year prices.

Select the correct answer using the codes given below

- a. 1 and 3 only
- b. 2 and 3 only
- c. 1 and 2 only
- d. 1, 2 and 3
 - 148. The Nilgiri Tahr, locally known as Nilgiri ibex, is found in which of the following states?
 - 1. Karnataka
 - 2. Tamilnadu
 - 3. Kerala

Select the correct answer using the code given below:

- a. 1 only b.
- b. 1 and 2 only
- c. 2 and 3 only
- d. 1, 2 and 3

- 149. Consider the following statements regarding Corporate Social Responsibility (CSR) in India
- 1. The concept of CSR rests on the ideology of give and take.
- 2. The provisions of CSR are applicable only to Indian Companies not applicable to branch and project offices of a foreign company in India.
- 3. Flexibility is permitted to the companies by allowing them to choose their preferred CSR engagements that are in conformity with the CSR policy.

Which of the statements given above is/are correct?

- a. 1 and 2 only
- b. 2 and 3 only
- c. 1 and 3 only
- d. 1, 2 and 3
- 150. The chief means of transport in Tundras is
- A) Camel
- (B) Donkeys
- (C) Sledge
- (D) Horse
